Professional Summary

During my four years working at Real Talk 93.3, I've gone from Intern to Co-Host/Producer of an award-winning morning show in Florida's capital city. Along with 2,500+ hours of on-air experience, I have learned the intricacies of on-air system management and production of news/sports/music for on-air use. Being a young conservative, I also believe that I bring a unique perspective to the table on current events and topics of the day.
